

Palaestra Training

The Best Trainers Create the Best Training

The Best Trainers Create the Best Training

Palaestra Training is dedicated to a single goal:

“To create the very best training at an affordable price.”

Why is our training so good? Very simple - The Best Trainers Create the Best Training. We work with the top 1% of trainers in the industry. These are the people who write the books, publish the articles, speak at all the industry events and have the information other trainers look to for guidance.

These are the Subject Matter Experts (SME's) that are tops in their fields and possess the rare ability to convey complex technical information in a manner that is easily understood, enjoyable, and fun! This results in a near 100% certification rate for Palaestra Training students.

We're information technology trainers and business professionals ourselves, so we know what works and what doesn't. We know how to deliver high-quality content at a fraction of the cost of traditional classroom training. We keep the training affordable and focused on our goal of delivering to you all the information you need to pass the exam, increase your skills and improve your career. When you purchase training from us, you can rest assured it's top notch, the result of years of experience in both the real world and the academic environments.

Some of our world-class training courses include:

- Cisco CCNA Certification Training
- Microsoft MCDST Certification Training
- CompTIA A+ Certification Training

Palaestra Training Mission

Palaestra Training is dedicated to continually bringing new and creative ways to captivate and educate the world around us.

We strive each and every day to develop something for everyone, enriching our customers' lives through education, entertainment and the development of new skills.

We earn the trust of our customers, employees and investors by providing consistently increasing value for all three.

Palaestra Training at Lockheed Martin Corporation

“The Palaestra team quickly established our requirements, made exact recommendations and delivered on every promise. My team was trained and certified faster than we expected, and at half the cost, thanks to Palaestra Training! “

– IT Project Manager, Lockheed Martin

The Best Trainers Create the Best Training

Palaestra Training delivers the best training and is a partner you can trust

Education You Can Take Anywhere

Traditional classroom training is great for some people, but with more and more demands on time and schedules getting tighter, that option often doesn't make sense. Travel time to and from class, scheduling considerations, and time away from work and family make classroom training increasingly less of an option. On top of that, you are ultimately taking a huge chance that you actually get a good instructor.

In reality, how do you know the person teaching your class didn't just finish their training a week before you signed up? How do you know your class, that you spent your hard-earned money to be a part of, isn't actually the first class they've taught? The answer is.... you don't.

Once the class is over, so is your access to the information

With our training, you will have access to world-class instructors that you can learn from at your own pace, anytime, anywhere.

Review our [IT Certification Training Video Product Catalog](#) and see how our training gives you the information you need to not only pass the exams, but to succeed.

It's never been easier to enjoy the flexibility of being able to take a break from training when personal or professional needs arise, and pick back up where you left off. Best of all you can watch and learn from the videos over and over again, as often as you like while you **learn at your own pace**.

If you're looking for the freedom of being able to learn at your own pace, while developing skills that will enhance your career and ultimately your life, then you have found what you've been looking for.

All of our instructors are industry certified, seasoned working professionals who are experts in their field and who thoroughly enjoy giving you the knowledge they have acquired through years of real-world experience.

Our goal has always been to create the very best training possible that is:

- **Educational**
- **Engaging**
- **Entertaining**

Equally important to us is to create training that is just plain fun to watch. One of the best ways to learn is to actually **enjoy** what you're learning. You retain more and are able to apply more when the training actually gets you excited.

Your Satisfaction is Guaranteed!

We're confident in our products and want you to be 100% satisfied. If you're not satisfied with our training for any reason, we'll refund 100% of the purchase price (less shipping costs if applicable). Simply return the video to us within 30 days of purchase and we'll promptly issue you a refund.
